(2) The costs of the construction of works constructed or to be constructed by the area authority, the costs of operating, maintaining and repairing all works constructed or continued in the area pursuant to this Act and the costs of conducting the affairs and business of the area shall be raised through a levy upon the assessed benefitted lands in the area.

(3) Notwithstanding anything in subsection (2), an owner of land liable to a levy in respect of the costs of construction of works may, before the authorization pursuant to section 40 of a loan to meet those costs, pay to the area authority the whole or any portion of the amount of the tax that may be charged against the land in respect of the costs, and thereupon the land shall, where the whole of such amount is paid, not be liable to the levy in respect of the costs or, where a portion of such amount is paid, be liable to a levy to the extent only of the portion remaining unpaid.

(4) Subject to subsection (5), a rate shall be levied equally on each assessed benefitted acre; but where there are, or may be, variations in the benefits, the benefitted acres may be placed in groups on the basis of the benefits derived and in such case the rate shall be the same for each acre in the same assessment group.

(5) The Lieutenant Governor in Council may, if he considers that the lands to be taxed are not or will not be benefitted equally, prescribe the basis on which the lands shall be taxed so that each parcel of land will be taxed equitably in relation to the assessment of each other parcel having regard to the varying degrees to which the respective parcels of land are benefitted or to be benefitted, and thereupon the land shall be taxed on the basis so prescribed.

(6) Where a municipality in which lands in respect of which the area authority proposes to levy a rate are situated agrees to make a grant to the area authority the area authority may accept the grant:

- (a) in lieu of levying the rate against those lands for the current year in which case the area authority shall make no levy for that year; or
- (b) as a reduction in the amount to be raised for the current year by levying a rate on those lands.

(7) Where, in the opinion of the area authority, it is in the interest of owners in the area to provide a fund for the payment of costs that may be incurred, by reason of flooding or other unforeseen conditions, in the construction, operation, maintenance and repair of works and in the conduct of the affairs and business of the area, the area authority may fix a rate to be levied annually against lands that may be benefitted through the incurring of such costs, and the moneys collected shall be deposited by the secretary treasurer in a separate account and shall be used only for the purpose of paying such costs.

(2) A bylaw or resolution providing for an expenditure not included in the current budget and providing for the creation of a debt not payable within the current year shall have no force or effect until it is approved by the Saskatchewan Municipal Board; and the Board before giving such approval may require the bylaw or resolution to be submitted to a vote in the manner prescribed for debenture loans.
