shall be pooled for the development and operation of the drainage unit for zones below the base of the Birdbear Formation, in accordance with the following pooling plan, effective on the date of this order.

Dated at Regina, Saskatchewan, April 16, 1999.

Ray Clayton, Deputy Minister,  
Saskatchewan Energy and Mines.

#### POOLING PLAN (Forming Part of MRO 130/99)

**1** Tri Link Resources Ltd. shall be the Operator of the well (hereinafter referred to as "the well") to be drilled in the drainage unit and shall conduct the operation thereof in a reasonable, prudent and workmanlike manner for and on behalf of all owners in the drainage unit and shall have exclusive control of all drilling (which term shall hereafter be deemed to include drilling, testing, abandoning or completing), equipping for production and production operations conducted thereon.

**2** Each separately owned interest in the drainage unit shall be assigned a tract factor equal to the fraction that such separately owned interest is of the total of the entire interests in the drainage unit and the costs of drilling, equipping and operating the well and all production from the well, shall be allocated to the separately owned interests in accordance with their respective tract factors. The production allocated to each separately owned interest shall be subject to all royalties and taxes burdening any lease or other contract pursuant to which such interest is held. All such royalties and taxes shall be paid and borne solely by the holder of such interest and shall not affect production from the pooled area allocated to others.

**4** In the event that any lessee or owner referred to in clause 3 fails to pay its share of the costs of drilling the well (hereinafter referred to as a "non-participant"), within 15 days of the notification of spud of the subject well by the Operator (a well drilling, completion and equipping cost estimate to be included in the notification of spud), the Operator shall advance such non-participant's share of such costs and shall be entitled to recover the non-participant's share of such costs and a surcharge equal to fifty per cent of such costs out of the proceeds remaining from the sale of production attributable to the non-participant's interest after deducting the non-participant's share of the costs of equipping the well for production, the costs of operating the well and all royalties and taxes which otherwise would have been borne by the non-participant with respect to the said production.

**5** Within thirty days after the effective date, all owners in the drainage unit, whether lessees of or owners of unleased oil and gas rights, shall submit to the Operator proof of title to their respective interests in the drainage unit.

**6** In the event of any dispute as to ownership of any interest in the drainage unit or failure to establish such ownership to the satisfaction of the Operator, the Operator shall be entitled to sell the production allocated to such interest and impound in a trust account the proceeds of such sale after deducting the proportionate part of the cost of drilling, equipping and operating the well in addition to any royalties and/or taxes attributable to such interest until such time as the dispute is settled or ownership of the interest is established to the satisfaction of the Operator.

**7** The Operator shall account to all working interest owners in the drainage unit for the costs and expenses incurred in drilling, equipping and operating the well, and shall follow the accounting procedure as recommended by the Petroleum Accountants Society of Canada (1991 Accounting Procedure) which is attached hereto and marked as Exhibit "A" and shall incur only those direct and indirect costs resulting from prudent and workmanlike operation and management of the drainage unit.
