SASKATCHEWAN INFORMATION TECHNOLOGY OFFICE —
 NOTICE OF INTENT TO ADOPT THE NAD83 (CSRS98)
 DATUM AS A PROVINCIAL STANDARD

Notice is hereby given that the Geomatics Executive Council intends to adopt a new provincial positional reference system as the basis for all geomatics activities and products, effective November 1, 2004.

The new system is named the North American Datum of 1983 (NAD83) and implemented as the Canadian Spatial Reference System of 1998 (CSRS98). This new datum replaces the North American Datum of 1927 (NAD27). NAD83 is a national and international coordinate reference system standard. NAD83 provides an accurate and homogeneous geodetic reference system for the North American continent that is compatible with modern satellite positioning techniques now used extensively for surveying and navigation.

All provincial sectors are urged to adopt NAD83(CSRS98) for activities dependent upon or related to accurate positioning, including existing or new geographic information systems (GIS).

Persons or organizations wishing to comment on the adoption of the new datum as a provincial standard are encouraged to send them to the contact named below. All comments received before September 15, 2004 will be taken into consideration prior to making a decision on the final adoption of the new datum.

Comments or inquiries about the adoption of NAD83(CSRS98) may be directed to Mike Mephram, Chair, Technology Advisory Board, Office of Geomatics Coordination, 8th flr., 2101 Scarth St., Regina SK S4P 3V7, email: MMephram@ito.gov.sk.ca.
