REVISED REGULATIONS OF SASKATCHEWAN

CHAPTER D-13.1 REG 2*The Department of Energy and Mines Act*

Section 11

Order in Council 829/2002, dated November 26, 2002

(Filed November 27, 2002)

PART I

Title and Interpretation**Title**

- 1 These regulations may be cited as *The Mineral Exploration Incentive Regulations*.

Interpretation

- 2 In these regulations:

- (a) **“Crown mineral disposition”** means a disposition granted pursuant to The Mineral Disposition Regulations, 1986, being Saskatchewan Regulations 30/86, or The Quarrying Regulations, 1957, being Saskatchewan Regulations 553/67;
- (b) **“Crown mineral lands”** means the mineral interest of the Crown in right of Saskatchewan in any lands in Saskatchewan whether or not the surface rights in any of those lands are the property of the Crown in right of Saskatchewan, but does not include any area not available for disposition as mentioned in section 75 of The Mineral Disposition Regulations, 1986, being Saskatchewan Regulations 30/86;
- (c) **“eligible mineral corporation”** means a corporation lawfully carrying on business in Saskatchewan one of whose principal corporate objects is to explore for or mine minerals;
- (d) **“eligible prospector”** means:
- (i) an individual who:
 - (A) has knowledge of the science of identifying minerals; and
 - (B) has the equivalent of at least two field seasons of prospecting experience; or
 - (ii) a corporation that is wholly owned by one individual if:
 - (A) that individual or at least one of the corporation’s employees has knowledge of the science of identifying minerals; and
 - (B) that individual and the employees of the corporation collectively have the equivalent of at least two field seasons of prospecting experience;

- (e) **“fiscal year”** means the period commencing on April 1 of one year and ending on March 31 of the following year;
- (f) **“mineral”** means any non-viable substance formed by the processes of nature, irrespective of chemical or physical state and both before and after extraction, but does not include:
- (i) surface or ground water;
 - (ii) agricultural soil;
 - (iii) sand or gravel;
 - (iv) subsurface minerals within the meaning of The Subsurface Mineral Regulations, 1960, being Saskatchewan Regulations 541/67;
 - (v) coal;
 - (vi) oil or gas;
 - (vii) alkali within the meaning of the Alkali Mining Regulations, being Saskatchewan Regulations 444/67;
 - (viii) oil shale within the meaning of The Oil Shale Regulations, 1964, being Saskatchewan Regulations 555/64;
 - (ix) helium and associated gases within the meaning of The Helium and Associated Gases Regulations, 1964, being Saskatchewan Regulations 559/64; or
 - (x) a palaeontological object as defined in *The Heritage Property Act*;
- (g) **“prospecting”** means the search for any mineral.

PART II Prospectors Incentive Program

Interpretation of Part

3(1) In this Part:

- (a) **“approved project”** means a project approved pursuant to section 8;
- (b) **“program”** means the prospectors incentive program established pursuant to section 4;
- (c) **“project”** means a prospecting project:
 - (i) undertaken by an eligible prospector;
 - (ii) on Crown mineral lands from which minerals are not being produced; and
 - (iii) undertaken within a 10 kilometre radius.

(2) The requirement mentioned in subclause (c)(iii) does not apply to projects involving reconnaissance surveys.

Prospectors incentive program established

4(1) The prospectors incentive program is established.

(2) The minister shall administer the program in accordance with these regulations.

(3) The purpose of the program is to provide financial assistance to eligible prospectors with respect to approved projects.

Application for program

5 To request financial assistance for a project from the program, an eligible prospector must:

- (a) apply for a project to be approved pursuant to section 6; and
- (b) apply for financial assistance pursuant to section 11 for an approved project.

Application for approval of project

6(1) An eligible prospector may apply to the minister for approval of a project.

(2) An application pursuant to this section must:

- (a) be in a form satisfactory to the minister; and
- (b) provide the minister with the following information:
 - (i) the details of the proposed project; and
 - (ii) evidence satisfactory to the minister to establish that the applicant is an eligible prospector and that the proposed project meets the criteria for assistance established pursuant to this Part.

(3) An applicant must provide the minister with any additional information that the minister may require.

Deadlines for applications

7(1) Subject to subsection (2), applications for approval of projects must be received by the minister:

- (a) with respect to projects for the 2002-2003 fiscal year, on or before December 31, 2002;
- (b) with respect to projects for the 2003-2004 and subsequent fiscal years:
 - (i) on or after January 1 preceding the start of the fiscal year in which the project is to be carried out; and
 - (ii) on or before April 30 of the fiscal year in which the project is to be carried out.

(2) The minister may accept applications after the deadline if there are available funds to be distributed pursuant to the program.

Approval of applications

8 Subject to sections 9 and 10, the minister may approve a project that is the subject of an application submitted pursuant to section 6 if the minister is satisfied that:

- (a) the applicant is an eligible prospector;
- (b) there is no other approved project pursuant to this section or section 20 on the Crown mineral lands on which the proposed project is to be carried out;
- (c) the proposed project meets the criteria for assistance established pursuant to this Part;
- (d) each holder of a Crown mineral disposition that is included in the project has provided written authorization for the eligible prospector to conduct exploration on the holder's Crown mineral disposition;
- (e) it is not contrary to the public interest to approve the project; and
- (f) the applicant has complied with these regulations.

Maximum of one application allowed each fiscal year

9(1) Each eligible prospector may have only one project approved for each fiscal year.

(2) An individual and a wholly-owned corporation owned by that individual are deemed to be one eligible prospector for the purposes of these regulations.

Prorated amounts of financial assistance

10 Notwithstanding any other provision of these regulations, if the amount of financial assistance to be provided for approved projects exceeds the amount of funding available for this program, the minister may prorate the amounts of financial assistance to be provided.

Application for financial assistance

11(1) An eligible prospector may apply to the minister for financial assistance for an approved project.

- (2) An application pursuant to this section must be:
 - (a) in a form satisfactory to the minister; and
 - (b) received by the minister by June 30 of the fiscal year following the fiscal year for which the project was approved.
- (3) An application may be submitted pursuant to this section for an uncompleted project if the application complies with the requirements of this section.

- (4) Notwithstanding clause (2)(b), the minister may approve an application received after the deadline established in that clause if:
- (a) in the minister's opinion, the delay was caused by factors beyond the control of the applicant;
 - (b) the applicant makes a written request to the minister before the date mentioned in clause (2)(b) to submit a late application;
 - (c) the applicant receives written permission from the minister to submit a late application; and
 - (d) the applicant is otherwise in compliance with these regulations.
- (5) With the application for financial assistance, the eligible prospector must submit the following information and materials to the minister:
- (a) evidence satisfactory to the minister to establish:
 - (i) the amount of expenditures claimed for the approved project; and
 - (ii) that the expenditures mentioned in subclause (i) were paid;
 - (b) a technical report that is satisfactory to the minister, and that complies with the requirements set out in the Appendix; and
 - (c) any additional information that the minister may request.

Maximum amount of financial assistance

12 Subject to section 10, the maximum amount of financial assistance that an eligible prospector may receive for an approved project is the lesser of:

- (a) 50% of the expenditures mentioned in section 13 that were incurred and paid by the eligible prospector in carrying out the approved project; and
- (b) \$7,500.

Eligible expenditures for financial assistance

13(1) For the purposes of section 12 and subject to subsections (2) to (4), expenditures with respect to which financial assistance may be paid for an approved project are the following:

- (a) stripping and trenching;
- (b) surface drilling;
- (c) linecutting;
- (d) assaying;
- (e) geological surveys;
- (f) geophysical surveys;
- (g) geochemical surveys;

- (h) sampling of a mineral resource but only if:
 - (i) the weight of each sample collected does not exceed 15 tonnes; and
 - (ii) the total weight of all samples, other than samples that are less than one tonne, collected with respect to any one mineral resource in an approved project by an eligible prospector does not exceed 1000 tonnes;
 - (i) travelling and transportation costs of personnel, equipment, samples and supplies used in the approved project to a maximum of 40% of the total cost of the approved project;
 - (j) any other expenditure approved by the minister.
- (2) For the purposes of section 12, no financial assistance is to be paid for the following:
- (a) excavation of an open pit, exploration shaft, adit or decline;
 - (b) preparation of a feasibility study;
 - (c) road building and mining development costs;
 - (d) capital costs;
 - (e) any other expenditure disallowed by the minister.
- (3) Financial assistance may be paid for the expenditures mentioned in subsection (1) if the eligible prospector has incurred the expenditures in carrying out the approved project:
- (a) in the 2002-2003 fiscal year, on or after January 1, 2003 and on or before March 31, 2003; and
 - (b) in the 2003-2004 fiscal year and subsequent fiscal years, during the fiscal year for which the project was approved.
- (4) The minister may deny financial assistance for expenditures that are not in the minister's opinion reasonable.

Interim financial assistance for air transportation

14(1) An eligible prospector may apply to the minister to obtain interim financial assistance to assist with air transportation expenditures that are made:

- (a) in connection with carrying out the approved project; and
 - (b) in the Northern Saskatchewan Administration District, within the meaning of *The Northern Saskatchewan Administration District Boundaries Regulations*.
- (2) An eligible applicant who applies for interim financial assistance pursuant to this section shall:
- (a) apply in a form satisfactory to the minister; and
 - (b) provide the minister with any information that the minister may require to approve the interim financial assistance.

- (3) An application for interim financial assistance must be received by the minister:
- (a) before completion of the approved project; and
 - (b) on or before the end of the fiscal year for which the approved project was approved.
- (4) The maximum amount of interim financial assistance that may be approved is the lesser of:
- (a) 40% of the expenditures mentioned in clause 13(1)(i) that the eligible prospector has incurred in carrying out the approved project; and
 - (b) \$3,000.
- (5) If the minister provides interim financial assistance pursuant to this section, that amount must be deducted from the amount of financial assistance determined pursuant to section 12.

PART III

Corporation Exploration Incentive Program

Interpretation of Part

15(1) In this Part:

- (a) **“approved project”** means a project approved pursuant to section 20;
 - (b) **“program”** means the corporation exploration incentive program established pursuant to section 16;
 - (c) **“project”** means a mineral exploration project:
 - (i) undertaken by an eligible mineral corporation;
 - (ii) on Crown mineral lands from which minerals are not being produced; and
 - (iii) undertaken within a 10 kilometre radius.
- (2) The requirement mentioned in subclause (c)(iii) does not apply to projects involving reconnaissance surveys.

Corporation exploration incentive program established

16(1) The corporation exploration incentive program is established.

- (2) The minister shall administer the program in accordance with these regulations.
- (3) The purpose of the program is to provide financial assistance to eligible mineral corporations with respect to approved projects.

Application for program

17 To request financial assistance for a project from the program, an eligible mineral corporation must:

- (a) apply for a project to be approved pursuant to section 18; and
- (b) apply for financial assistance pursuant to section 23 for an approved project.

Application for approval of project

18(1) An eligible mineral corporation may apply to the minister for approval of a project.

(2) An application pursuant to this section must:

- (a) be in a form satisfactory to the minister; and
- (b) provide the minister with the following information:
 - (i) the details of the proposed project; and
 - (ii) evidence satisfactory to the minister to establish that the applicant is an eligible mineral corporation and that the proposed project meets the criteria for assistance established pursuant to this Part.

(3) An applicant must provide the minister with any additional information that the minister may require.

Deadlines for applications

19(1) Subject to subsection (2), applications for approval of projects must be received by the minister:

- (a) with respect to projects for the 2002-2003 fiscal year, on or before December 31, 2002;
- (b) with respect to projects for the 2003-2004 and subsequent fiscal years:
 - (i) on or after April 1 of the fiscal year in which the project is to be carried out; and
 - (ii) on or before the October 31 of the fiscal year in which the project is to be carried out.

(2) The minister may accept applications after the deadline if there are available funds to be distributed pursuant to the program.

Approval of applications

20 Subject to sections 21 and 22, the minister may approve a project that is the subject of an application submitted pursuant to section 18 if the minister is satisfied that:

- (a) the applicant is an eligible mineral corporation;
- (b) there is no other approved project pursuant to this section or section 8 on the Crown mineral lands on which the proposed project is to be carried out;

- (c) the proposed project meets the criteria for assistance established pursuant to this Part;
- (d) each holder of a Crown mineral disposition that is included in the project has provided written authorization for the eligible mineral corporation to conduct exploration on the holder's Crown mineral disposition;
- (e) it is not contrary to the public interest to approve the project; and
- (f) the applicant has complied with these regulations.

Maximum of one application allowed each fiscal year

21(1) In this section, “**related persons**” means related persons as determined in accordance with section 251 of *The Income Tax Act* (Canada).

- (2) Each eligible mineral corporation may have only one project approved each fiscal year.
- (3) An eligible mineral corporation and all related persons to that eligible mineral corporation are deemed to be one eligible mineral corporation for the purposes of these regulations.

Prorated amounts of financial assistance

22 Notwithstanding any other provision of these regulations, if the amount of financial assistance to be provided for approved projects exceeds the amount of funding available for this program, the minister may prorate the amounts of financial assistance to be provided.

Application for financial assistance

23(1) An eligible mineral corporation may apply to the minister for financial assistance for an approved project.

- (2) An application pursuant to this section must be:
 - (a) in a form satisfactory to the minister; and
 - (b) received by the minister by June 30 of the fiscal year following the fiscal year for which the project was approved.
- (3) An application may be submitted pursuant to this section for an uncompleted project if the application complies with the requirements of this section.
- (4) Notwithstanding clause (2)(b), the minister may approve an application received after the deadline established in that clause if:
 - (a) in the minister's opinion, the delay was caused by factors beyond the control of the applicant;
 - (b) the applicant makes a written request to the minister before the date mentioned in clause (2)(b) to submit a late application;

- (c) the applicant receives written permission from the minister to submit a late application; and
 - (d) the applicant is otherwise in compliance with these regulations.
- (5) With the application for financial assistance, the eligible mineral corporation must submit the following information and materials to the minister:
- (a) evidence satisfactory to the minister to establish:
 - (i) the amount of expenditures claimed for the approved project; and
 - (ii) that the expenditures mentioned in subclause (i) were paid;
 - (b) a technical report that is satisfactory to the minister, and that complies with the requirements set out in the Appendix; and
 - (c) any additional information that the minister may request.

Maximum amount of financial assistance

24 Subject to section 22, the maximum amount of financial assistance that an eligible mineral corporation may receive for an approved project is the lesser of:

- (a) 25% of the expenditures mentioned in section 25 that were incurred and paid by the eligible mineral corporation in carrying out the approved project; and
- (b) \$100,000.

Eligible expenditures for financial assistance

25(1) For the purposes of section 24 and subject to subsections (2) to (4), expenditures with respect to which financial assistance may be paid for an approved project are the following:

- (a) stripping and trenching;
- (b) surface drilling;
- (c) linecutting;
- (d) assaying;
- (e) geological surveys;
- (f) geophysical surveys;
- (g) geochemical surveys;
- (h) sampling of a mineral resource but only if:
 - (i) the weight of each sample collected does not exceed 15 tonnes; and
 - (ii) the total weight of all samples, other than samples that are less than one tonne, collected with respect to any one mineral resource in an approved project by an eligible mineral corporation does not exceed 1000 tonnes;

- (i) travelling and transportation costs of personnel, equipment, samples and supplies used in the approved project to a maximum of 40% of the total cost of the approved project;
 - (j) any other expenditure approved by the minister.
- (2) For the purposes of section 24, no financial assistance is to be paid for the following:
- (a) excavation of an open pit, exploration shaft, adit or decline;
 - (b) preparation of a feasibility study;
 - (c) road building and mining development costs;
 - (d) capital costs;
 - (e) any other expenditure disallowed by the minister.
- (3) Financial assistance may be paid for the expenditures mentioned in subsection (1) if the eligible mineral corporation has incurred the expenditures in carrying out the approved project:
- (a) in the 2002-2003 fiscal year, on or after January 1, 2003 and on or before March 31, 2003; and
 - (b) in the 2003-2004 fiscal year and subsequent fiscal years, during the fiscal year for which the project was approved.
- (4) The minister may deny financial assistance for expenditures that are not in the minister's opinion reasonable.

PART IV General

Confidentiality of information

26(1) In this section:

- (a) **“applicant”** means either an eligible prospector or eligible mineral corporation;
 - (b) **“confidential information”** means:
 - (i) any technical report showing the work done in carrying out an approved project pursuant to Part II or III that is submitted to the minister pursuant to those Parts; and
 - (ii) any information about expenditures that is submitted to the minister pursuant to subsections 11(5) or 23(5).
- (2) Subject to subsection (3), the minister and the department shall preserve confidentiality with respect to any confidential information for three years from the date that the confidential information was submitted to the minister.

(3) No officer or employee of the department shall release any confidential information until the earliest of:

- (a) the date the applicant who submitted the confidential information consents to the release;
- (b) the expiry of the three-year period mentioned in subsection (2);
- (c) if the approved project was carried out on a Crown mineral disposition, the date the Crown mineral disposition lapses or is terminated; and
- (d) if the approved project was carried out on Crown mineral lands for which no Crown mineral disposition has been granted and the applicant does not apply for and obtain a Crown mineral disposition with respect to those Crown mineral lands, one year from the date that the confidential information was submitted.

Audit

27 For six years after receiving financial assistance pursuant to Parts II or III, every eligible prospector and eligible mineral corporation shall, for the purpose of providing to the minister information necessary to audit the eligible expenditures:

- (a) provide to the minister any information that the minister may request; and
- (b) permit the minister to have access to any records or documents in the applicant's possession or control.

Overpayment

28(1) The minister may declare any or all payments made to an applicant pursuant to these regulations to be an overpayment if, in the minister's opinion:

- (a) the applicant has made a false or misleading statement with respect to a material fact in any information provided to the minister pursuant to these regulations;
- (b) the applicant has omitted to provide any information and that omission results in a statement with respect to a material fact being misleading; or
- (c) the applicant has failed to comply with these regulations.

(2) If the minister declares a payment to be an overpayment, the amount of the overpayment is deemed to be a debt due and owing to the Crown in right of Saskatchewan and may be recovered from the applicant in any manner authorized pursuant to *The Financial Administration Act, 1993* or in any other manner authorized by law.

PART V
Coming into Force

Coming into force

29 These regulations come into force on the day on which they are filed with the Registrar of Regulations.

APPENDIX

**Application for Financial Assistance
Requirements for Evidence of Work**

[Clauses 11(5)(b) and 23(5)(b)]

- 1** All geological, geophysical and geochemical surveys performed for the purpose of obtaining financial assistance shall be conducted under the supervision of a professionally qualified engineer, geologist, geophysicist, geochemist or any other person deemed by the minister to be competent.
- 2** Evidence of work submitted for financial assistance shall be essentially a report on field work carried out on an approved project and presentation and interpretation of the results obtained.
- 3** All submissions of evidence of work for financial assistance shall include in the report a page-size location map showing the boundaries and serial numbers of all relevant dispositions, pertinent topographic features, scale, north arrow and the National Topographic Survey map reference. Areas covered by detailed maps accompanying the submission should be indicated on the location map. Detailed maps accompanying the submission should be inset with a location or key map where appropriate.
- 4** All reports and maps submitted as evidence of work shall be submitted in duplicate unless otherwise noted in this Appendix and shall conform to the following standards:
 - (a) reports and maps shall contain all relevant data obtained as a result of work carried out in the field and shall include full interpretation of such data;
 - (b) reports shall be typewritten on letter-size paper, 21.5 centimetres by 28 centimetres, and bound in a folder, except drill logs which may be submitted on standard drill log forms;
 - (c) reports shall include a list of accompanying maps, the serial numbers of the dispositions on which the work was performed, name and address of the disposition holder, the covering dates of the field work and the names and responsibilities of all persons engaged in the field work, and shall be signed and dated by the person responsible for the technical content;

(d) maps shall be legible copies of final drafts and two folded prints of each map shall be submitted and, for each map that exceeds 21.5 centimetres by 35.5 centimetres in size, the following shall be submitted:

(i) one rolled sepia or mylar of the map; or

(ii) an electronic version of the map in a format acceptable to the minister;

(e) the size of any individual map shall not exceed 100 centimetres by 120 centimetres;

(f) maps shall include a legend, scale, north arrow and date of compilation or revision and shall show pertinent local topographic features and the boundaries and serial numbers of all relevant dispositions lying within the area covered by the map;

(g) maps showing field data shall be at a scale sufficient to clearly depict all observations made.

5 In addition to the requirements of sections 3 and 4 of this appendix, the following submissions shall be included in the evidence of work for the various types of work specified:

(1) Trenching and stripping:

(a) maps showing locations of trenched or stripped areas relative to local topography and disposition area boundaries, the dimensions of trenches or stripped areas and the locations from which any samples were taken;

(b) geological description of the exposed rock;

(c) assays or analyses clearly identified with sample locations within the trenched or stripped area.

(2) Drilling and logging:

(a) serial numbers of dispositions on which drilling was done;

(b) map showing location of drill holes relative to local topography and to disposition area boundaries;

(c) type of drilling and hole or core size;

(d) total depth, bearing and dip of the drill holes;

(e) location of core storage;

(f) complete geological drill logs and the name of the person who logged the core or samples;

(g) assay or analyses clearly identified as to hole or core intervals, and if no assays or analyses are provided, the reason for their absence;

(h) complete geophysical logs if run, identified as to type of equipment used.

-
- (3) Geological survey:
- (a) The report shall include:
 - (i) summary of exploration and development done on the disposition lands to date;
 - (ii) table of formations;
 - (iii) detailed geological description of rock types, structures and mineralized zones;
 - (iv) full acknowledgment of information obtained from another source and used in the report.
 - (b) The map shall include:
 - (i) location of outcrops;
 - (ii) designation of all outcrops by letters or numbers, corresponding with the list of rock types in the legend and table of formations;
 - (iii) structural data such as attitude of volcanic and sedimentary rocks, direction in which they face, foliation and lineation of igneous and metamorphic rocks, locations and nature of folding, actual or assumed position of faults, shear zones and contacts;
 - (iv) location of mineral showings, zones of mineralization, trenches, drill holes and underground workings;
 - (v) table of formations, list of rock types, list of symbols and name of person who carried out the survey.
- (4) Prospecting:
- (a) map of area prospected showing locations of all traverses made and the locations at which samples were taken;
 - (b) description of specialized equipment employed and the nature and level of any instrument readings taken;
 - (c) detailed description of observations made with respect to overburden, bedrock and mineralization, results obtained for all samples assayed or analyzed, and conclusions arrived at.
- (5) Geophysical survey:
- (a) ground survey:
 - (i) full operational data such as type of instruments used, spacing of readings and ground control used;
 - (ii) map showing the value of each instrument reading, whether anomalous or not, plotted at the location of the corresponding observation point;
 - (iii) presentation of data in either profile or contour form.

- (b) airborne survey:
 - (i) full operational data, including types and specifications of instruments used, type of aircraft, ground and altitude control used and terrain clearance;
 - (ii) position of all flight lines indicating direction of flight shown on a map;
 - (iii) where possible, presentation of data in either profile or contour form;
 - (iv) map including, where appropriate, indications of all anomalous instrument readings with a key to the symbols used.
- (6) Geochemical survey:
 - (a) detailed description of field sampling and analytical techniques;
 - (b) tabulated results of values obtained or values plotted on a map;
 - (c) sample locations with corresponding sample identification numbers shown on a map.
- (7) For reports and maps covering types of work not specified in this section the standard and detail of reporting shall be comparable to those which are specifically stated herein.

SASKATCHEWAN REGULATIONS 104/2002

The Government Organization Act
